# JAIKRIT SINGH KHICHI

## PROFILE

---

Motivated and enthusiastic second-year B.Tech student at VIT Bhopal with a solid foundation in programming, AWS, frontend development, and core languages such as Java, Python, and C++. Passionate about leveraging technology to build impactful projects and continuously pushing the boundaries of my skills. Actively involved in extracurricular activities to cultivate leadership, communication, and teamwork abilities. Eager to contribute to clubs and societies while growing both technically and personally through real-world challenges and collaborative opportunities.

## WORK EXPERIENCE

---

- Cloud Computing Intern  
Worniwel | Remote
  - Interned in the cloud computing domain, gaining hands-on experience with AWS services and cloud infrastructure.
- Projects
  1. Friendly Pocket (a upi app for tourists)
  2. Party flix (a movie watching platform)
